SAP: DELIVERING IT-POWERED BUSINESS INNOVATION

From Walldorf to Wall Street: The SAP Success Story

As the world's largest business software company, SAP delivers products and services that help accelerate business innovation for our customers. SAP believes that doing so will unleash growth and create significant new value – for its customers, partners, and ultimately, entire industries and the economy at large. Today customers in more than 120 countries run SAP applications – from distinct solutions addressing the needs of small businesses and midsize companies to suite offerings for global organizations.

Founded in 1972 in Germany, SAP has a rich history of innovation and growth as a true industry leader. SAP currently has more than 47,598 employees at sales and development locations in more than 50 countries worldwide, including offices in South Africa, Nigeria, and Kenya. SAP is listed on several exchanges, including the Frankfurt Stock Exchange and NYSE under the symbol "SAP."

Helping Companies Become Best-Run Businesses

SAP's vision is for companies of all sizes to become best-run businesses. In today's challenging business environment, best-run companies have clarity across all aspects of their business, which allows them to act quickly with increased insight, efficiency, and flexibility. By using SAP solutions, companies of all sizes – including small businesses and midsize companies – can reduce costs, optimize performance, and gain the insight and agility needed to close the gap between strategy and execution. To help customers get the most out of their IT investments so that they can maximize their business performance, SAP delivers the highest level of service and support.

Bronze Sponsors

DEG, member of KfW Bankengruppe, has been financing the investments of private companies in developing and emerging market countries for nearly 50 years. As one of Europe's largest development finance institutions, it promotes private business structures to contribute to sustainable economic growth and improved living conditions. DEG invests in profitable projects that contribute to sustainable development in all sectors of the economy.

It is Lufthansa's strategy to integrate Africa's most important growth markets into its worldwide route network. The airline seizes all opportunities for strengthening and continuously expanding its position on the African continent. Currently, Lufthansa offers its own services to 17 destinations in Africa, operating 108 flights per week from Frankfurt and Munich. Together with its partners SWISS, Austrian Airlines, bmi and Brussels Airlines, the Lufthansa Group serves a total of 39 destinations with 251 flights a week.
